

Internet Value Pricing

Our Internet Value Pricing mission at Modern Automotive is to present Value Pricing to all of our customers. To achieve this, we poll thousands of preowned websites hourly. This ensures that every one of our customers receives real-time Value Pricing on every SmartBuy Pre-owned Vehicle we sell. We do not artificially inflate our pre-owned prices in the hopes of winning a negotiating contest with our customers! After being in business since 1933, we have found that Internet Value Pricing is by far the best approach for our customers.

150-Point Quality Assurance Inspection
